TERMS OF SALE

1. All bids are to be per lot; no lots will be broken. In the event of identical bids on the same lot, the lot will be awarded to the first bid received. In the event of a dispute during floor bidding the auctioneer may at his discretion immediately put the lot up for sale again.

2. All sales are strictly for cash payable in U.S. dollars drawn on a U.S. bank. Invoices must be paid within 5 days of receipt. Shipping, handling, postage and registration charges will be added for lots delivered by mail. All bidders not furnishing resale permits will be responsible for sales tax as required under the law for lots delivered in the state of California. Any account not paid within the prescribed terms as outlined above will be billed additional interest and collection charges.

3. Bidders not known to us must furnish satisfactory references and/or a deposit equal to 25% of the bids submitted (which will be applied to purchases; any difference will be billed; any overage will be refunded). We reserve the right to obtain payment in full before delivery of the lots from any successful bidder even if satisfactory references are submitted. Title does not pass until lots are paid for in full.

4. No "buy" or unlimited bids will be accepted. No bids will be accepted from minors. The auctioneer and/or the cataloguer reserves the right to refuse any bid which, in our opinion, is not made in good faith or does not qualify credit-wise.

5. All items are guaranteed genuine.

6. We cannot be responsible for your errors in bidding, so check your bid sheet carefully. Please bid in even dollar amounts. All bids not in even dollar figures, including those increased by 10% to 20% (see our special service on the bid sheet), will be rounded off to the lower whole dollar amount. All bid sheets must be signed.

7. Auction sales are not approval sales. Any lot may be examined before bidding. No lot may be returned by a mail bidder without our permission in writing. Requests to return coins must be made in writing within three days of receipt of the coins. Late remittance for purchases, however, is cause to negate this privilege.

8. No lots may be returned for any reason by floor buyers (including those acting as agents for others). All floor sales are final.

9. Any claims involving errors in the catalogue or for other reasons must be made within three days of receipt of the coins. Bowers and Ruddy Galleries acts as agents for the various consignors. For this reason, no claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the bidder and the consignor, without involvement or responsibility of Bowers and Ruddy Galleries and/or the cataloguers. Bowers and Ruddy Galleries reserves the right to include its own material in any auction. In the event of a typographical error or attribution error or other error, the cataloguer reserves the right to withdraw any item from the sale without notice, or, if the error is discovered at a later date, to refund the buyer's money without further obligation. By placing a bid in this sale you agree that this transaction and these terms shall be construed in accordance with the laws of the state of California. Any controversy or claim arising out of or relating to this sale shall be settled by binding arbitration in Los Angeles, California, in accordance with the rules of the American Arbitration Association, and judgment upon the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof.

Introduction

Welcome to the Dr. W. James MacFarland Collection Part II catalogue, which offers consignments from several sources. On the pages to follow are many outstanding ancient coins and coins of the world.

Among the specimens offered are a number of choice Austrian pieces from the celebrated collection of Virgil Brand, the Chicago super collector who assembled in his lifetime one of the world's most valuable numismatic holdings. Specialists will find the quality of the coins, all struck in gold, to be remarkable.

Gold coins of other countries follow next in the catalogue, listed alphabetically by land of origin. Rarities are interspersed with type coins and other popular issues. All in all, there are *several hundred* gold coins and medals for your consideration!

Then come coins of the medieval and modern world, issued mainly in silver, listed alphabetically. Many rare and important crowns are offered, as are scarce lower denominations, high-condition pieces, and interesting groups and lots.

We invite your participation either by mail or, better yet, by in-person attendance. With such a large and varied offering there are bound to be many good buys for you. Check the catalogue carefully and bid liberally on the pieces you really need for your collection. For items which would be interesting to own if "the price is right," bid less liberally. Who knows, perhaps you'll buy a few additional. One thing is for sure however; if you don't bid, you won't buy. If you do bid, at least you have the chance to acquire some of the nicest world coins to cross the auction block in recent times. Literally, the sale includes something for everyone.

We express our appreciation to Robert van Bebbber for cataloguing and research, to our Auction Department for preparing the coins for study, and to our Graphic Arts Department for the latest in what must be the world's most spectacular continuing series of auction catalogues.

Thank you for your patronage and interest. We look forward to your participation.

Gold Coins of the World

A Selection from the Brand Collection

The following group of coins, Lot 3033 to Lot 3079, was acquired intact many years ago from the famous Brand Collection. Virgil Brand, a wealthy Chicago brewer, died in 1926, leaving an estate valued at several million dollars — including an extraordinary grouping of United States, Ancient, and World Coins.

His collection contained some of the finest numismatic specimens in the world. The present grouping, containing primarily Austrian coins, while it has no legendary rarities, does have many pieces which are truly remarkable for their scarcity and/or outstanding condition. Each has the illustrious pedigree of coming from the Virgil Brand estate many years ago.
